

Concerning the meeting in San Antonio, Texas, for January 28, 2004.

I am requesting that you allow more local control for broadcasting in the San Antonio area. The local stations provide the only way local needs can be addressed and discussed. They also provide the only way local programs can be seen. The First Baptist Church service on KSAT-TV has been broadcasting for 30+ years and has been important to the people of this area. If anything, we need more local control of the broadcasting and not less. Thank you.
